Water sculptures

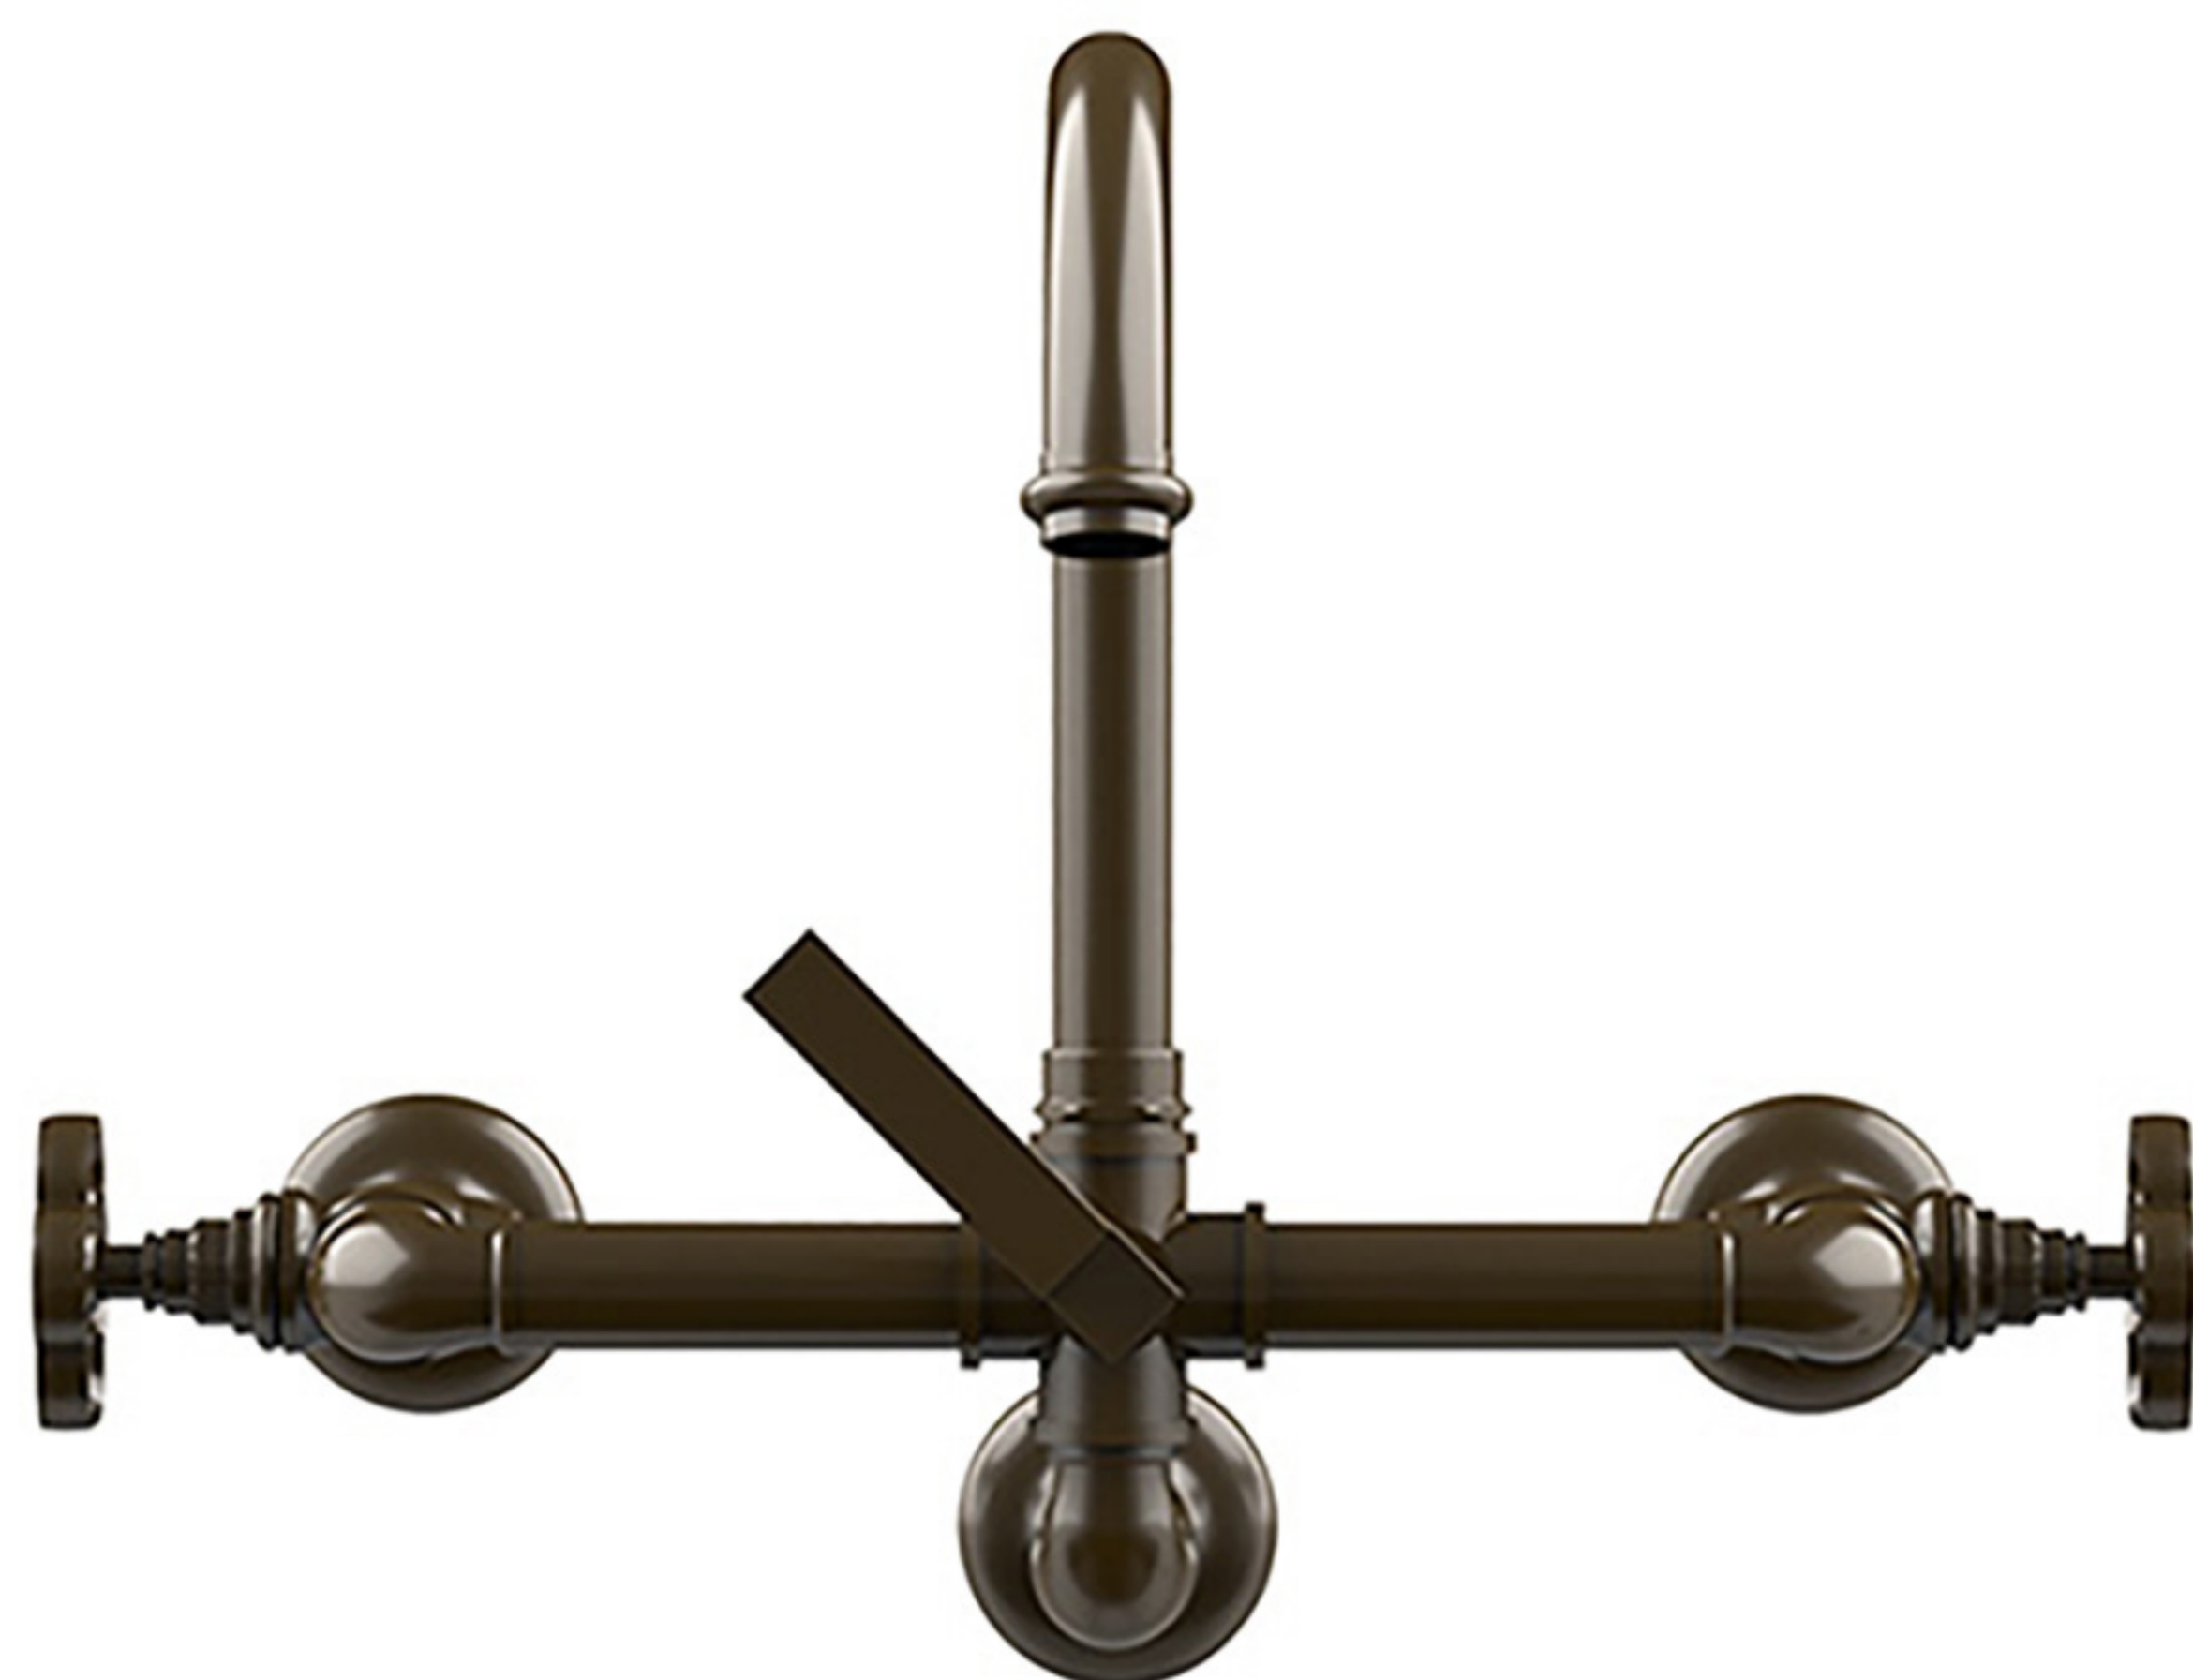

SERIE INDUSTRIALE

Water sculptures

Il progetto Serie Industriale nasce dalla collaborazione tra l'azienda Rubinetterie Fiorentine e il Product Designer Valenti Michele. La linea moderna si abbina ai materiali classici come il travertino e la finitura canna di fucile ne esalta le forme semplici ed eleganti. I prodotti sono completamente artigianali e realizzati esclusivamente in Italia

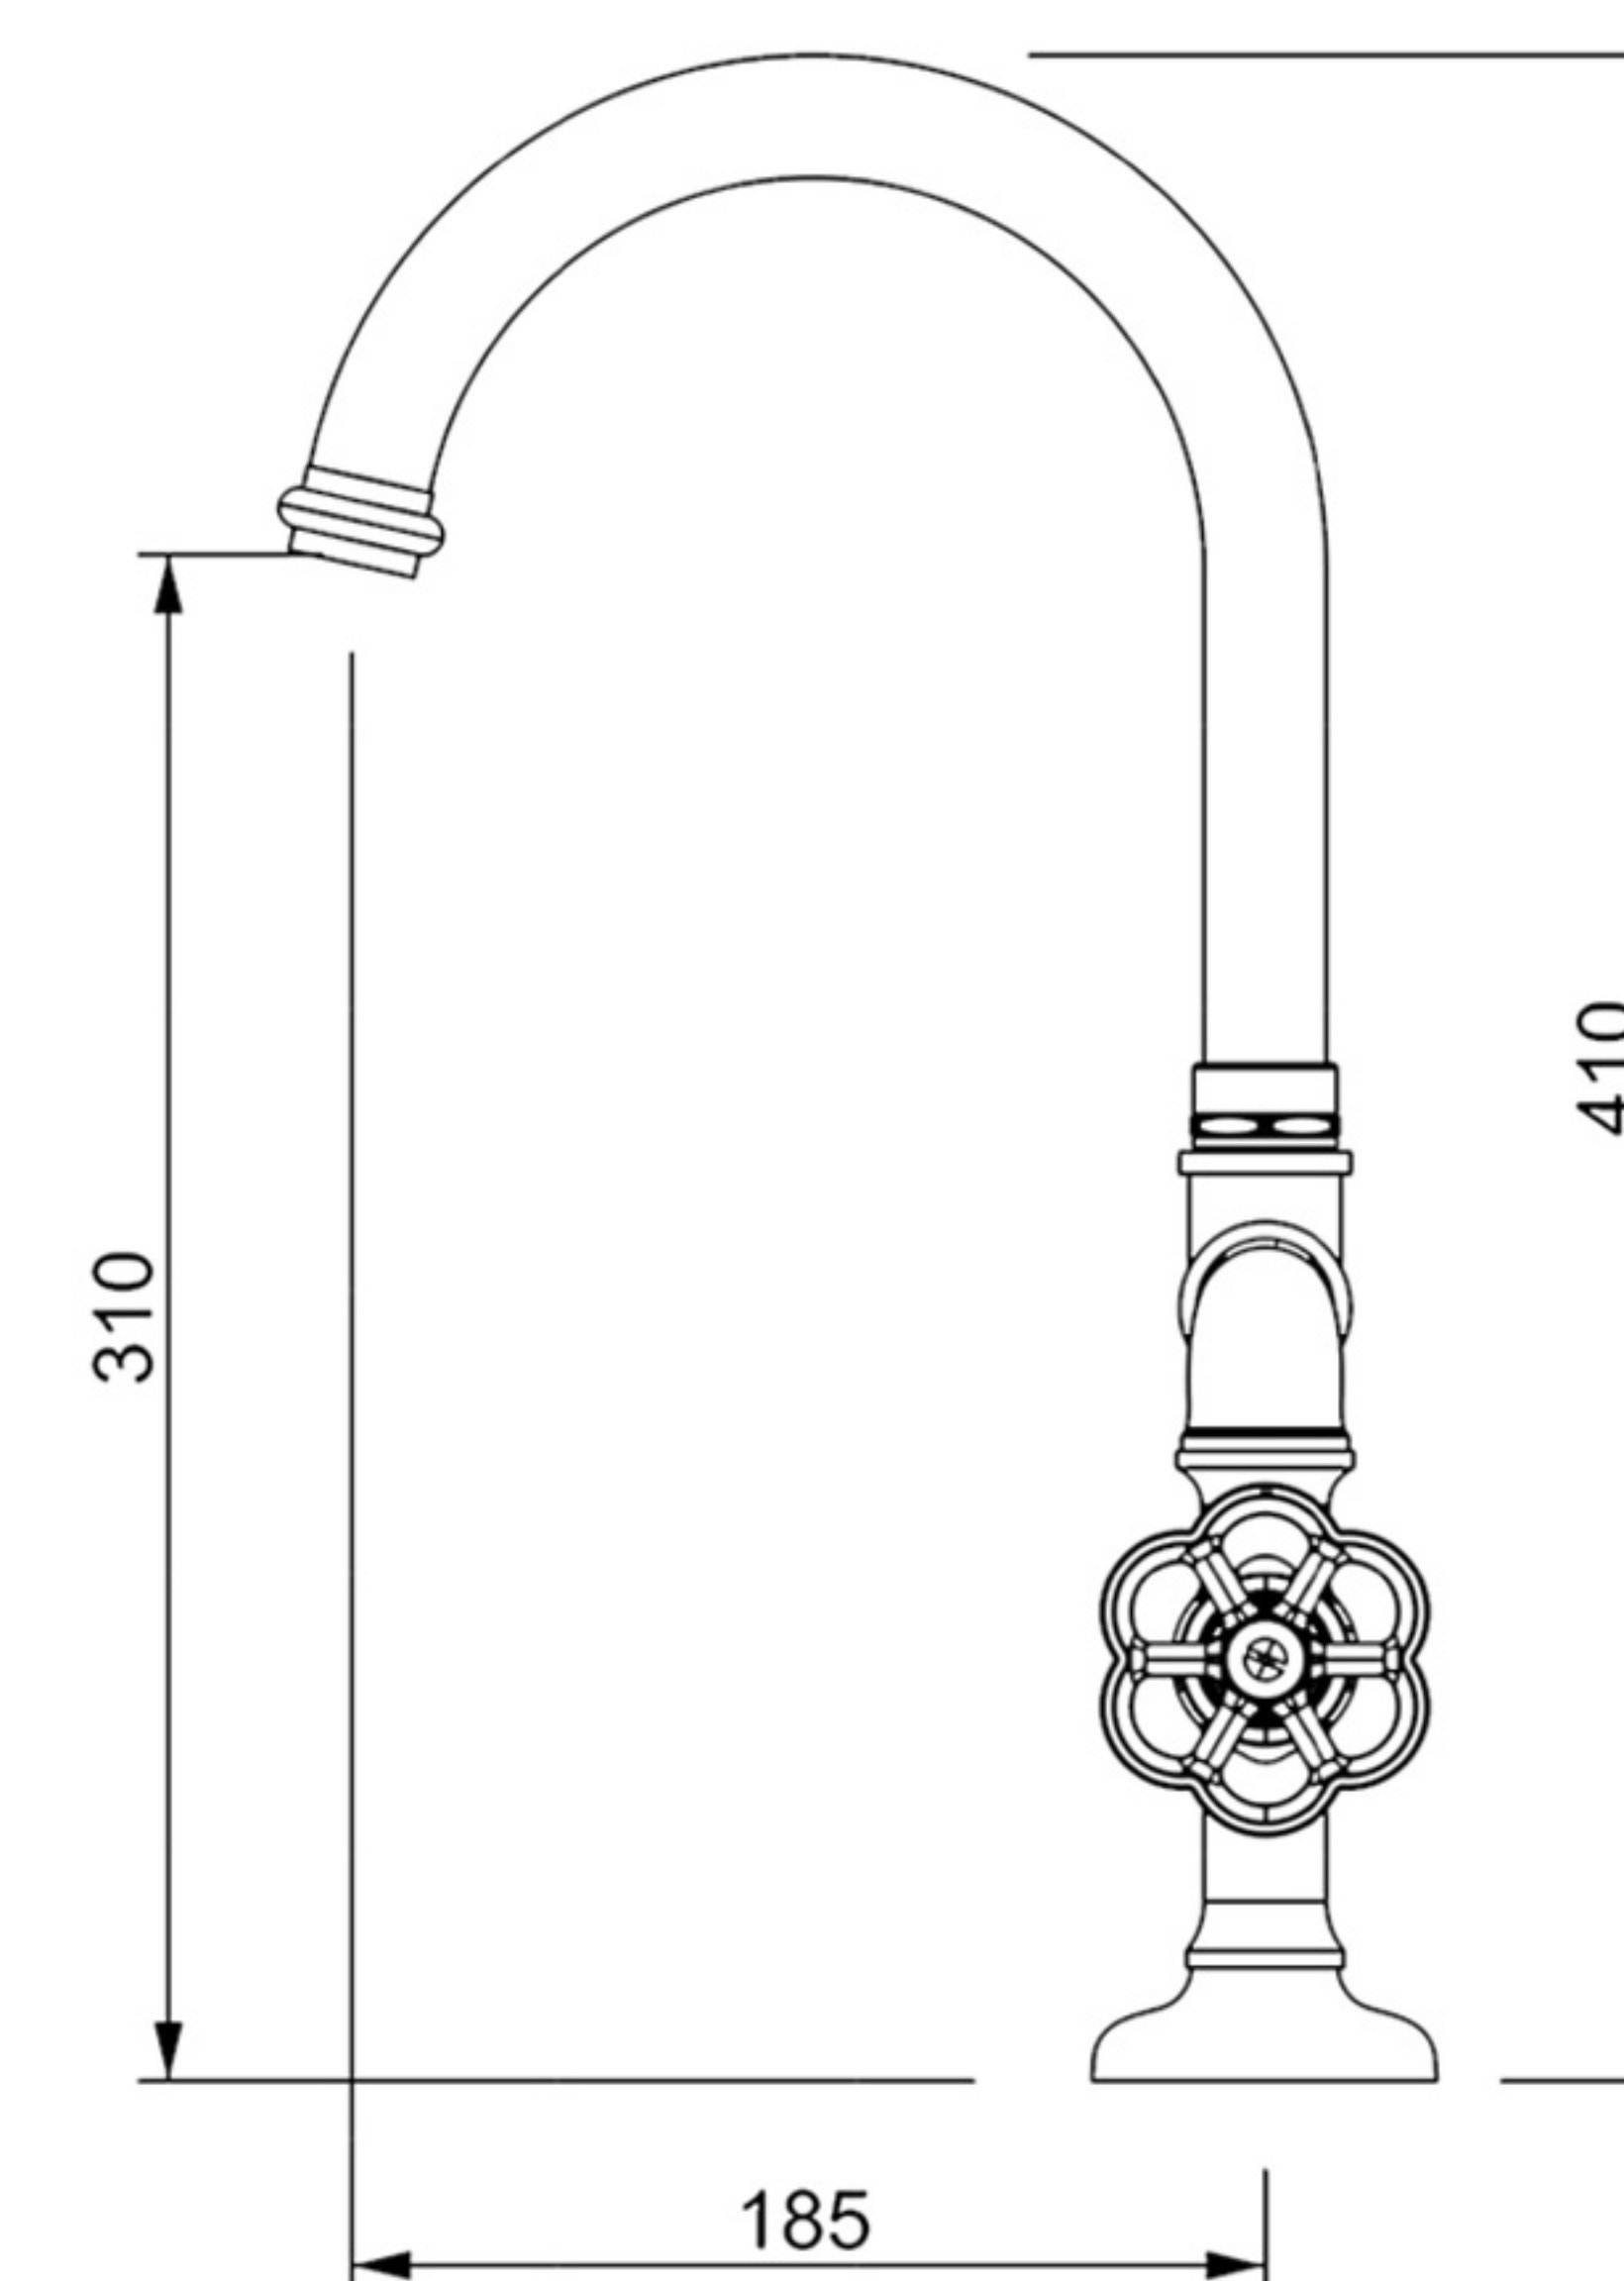

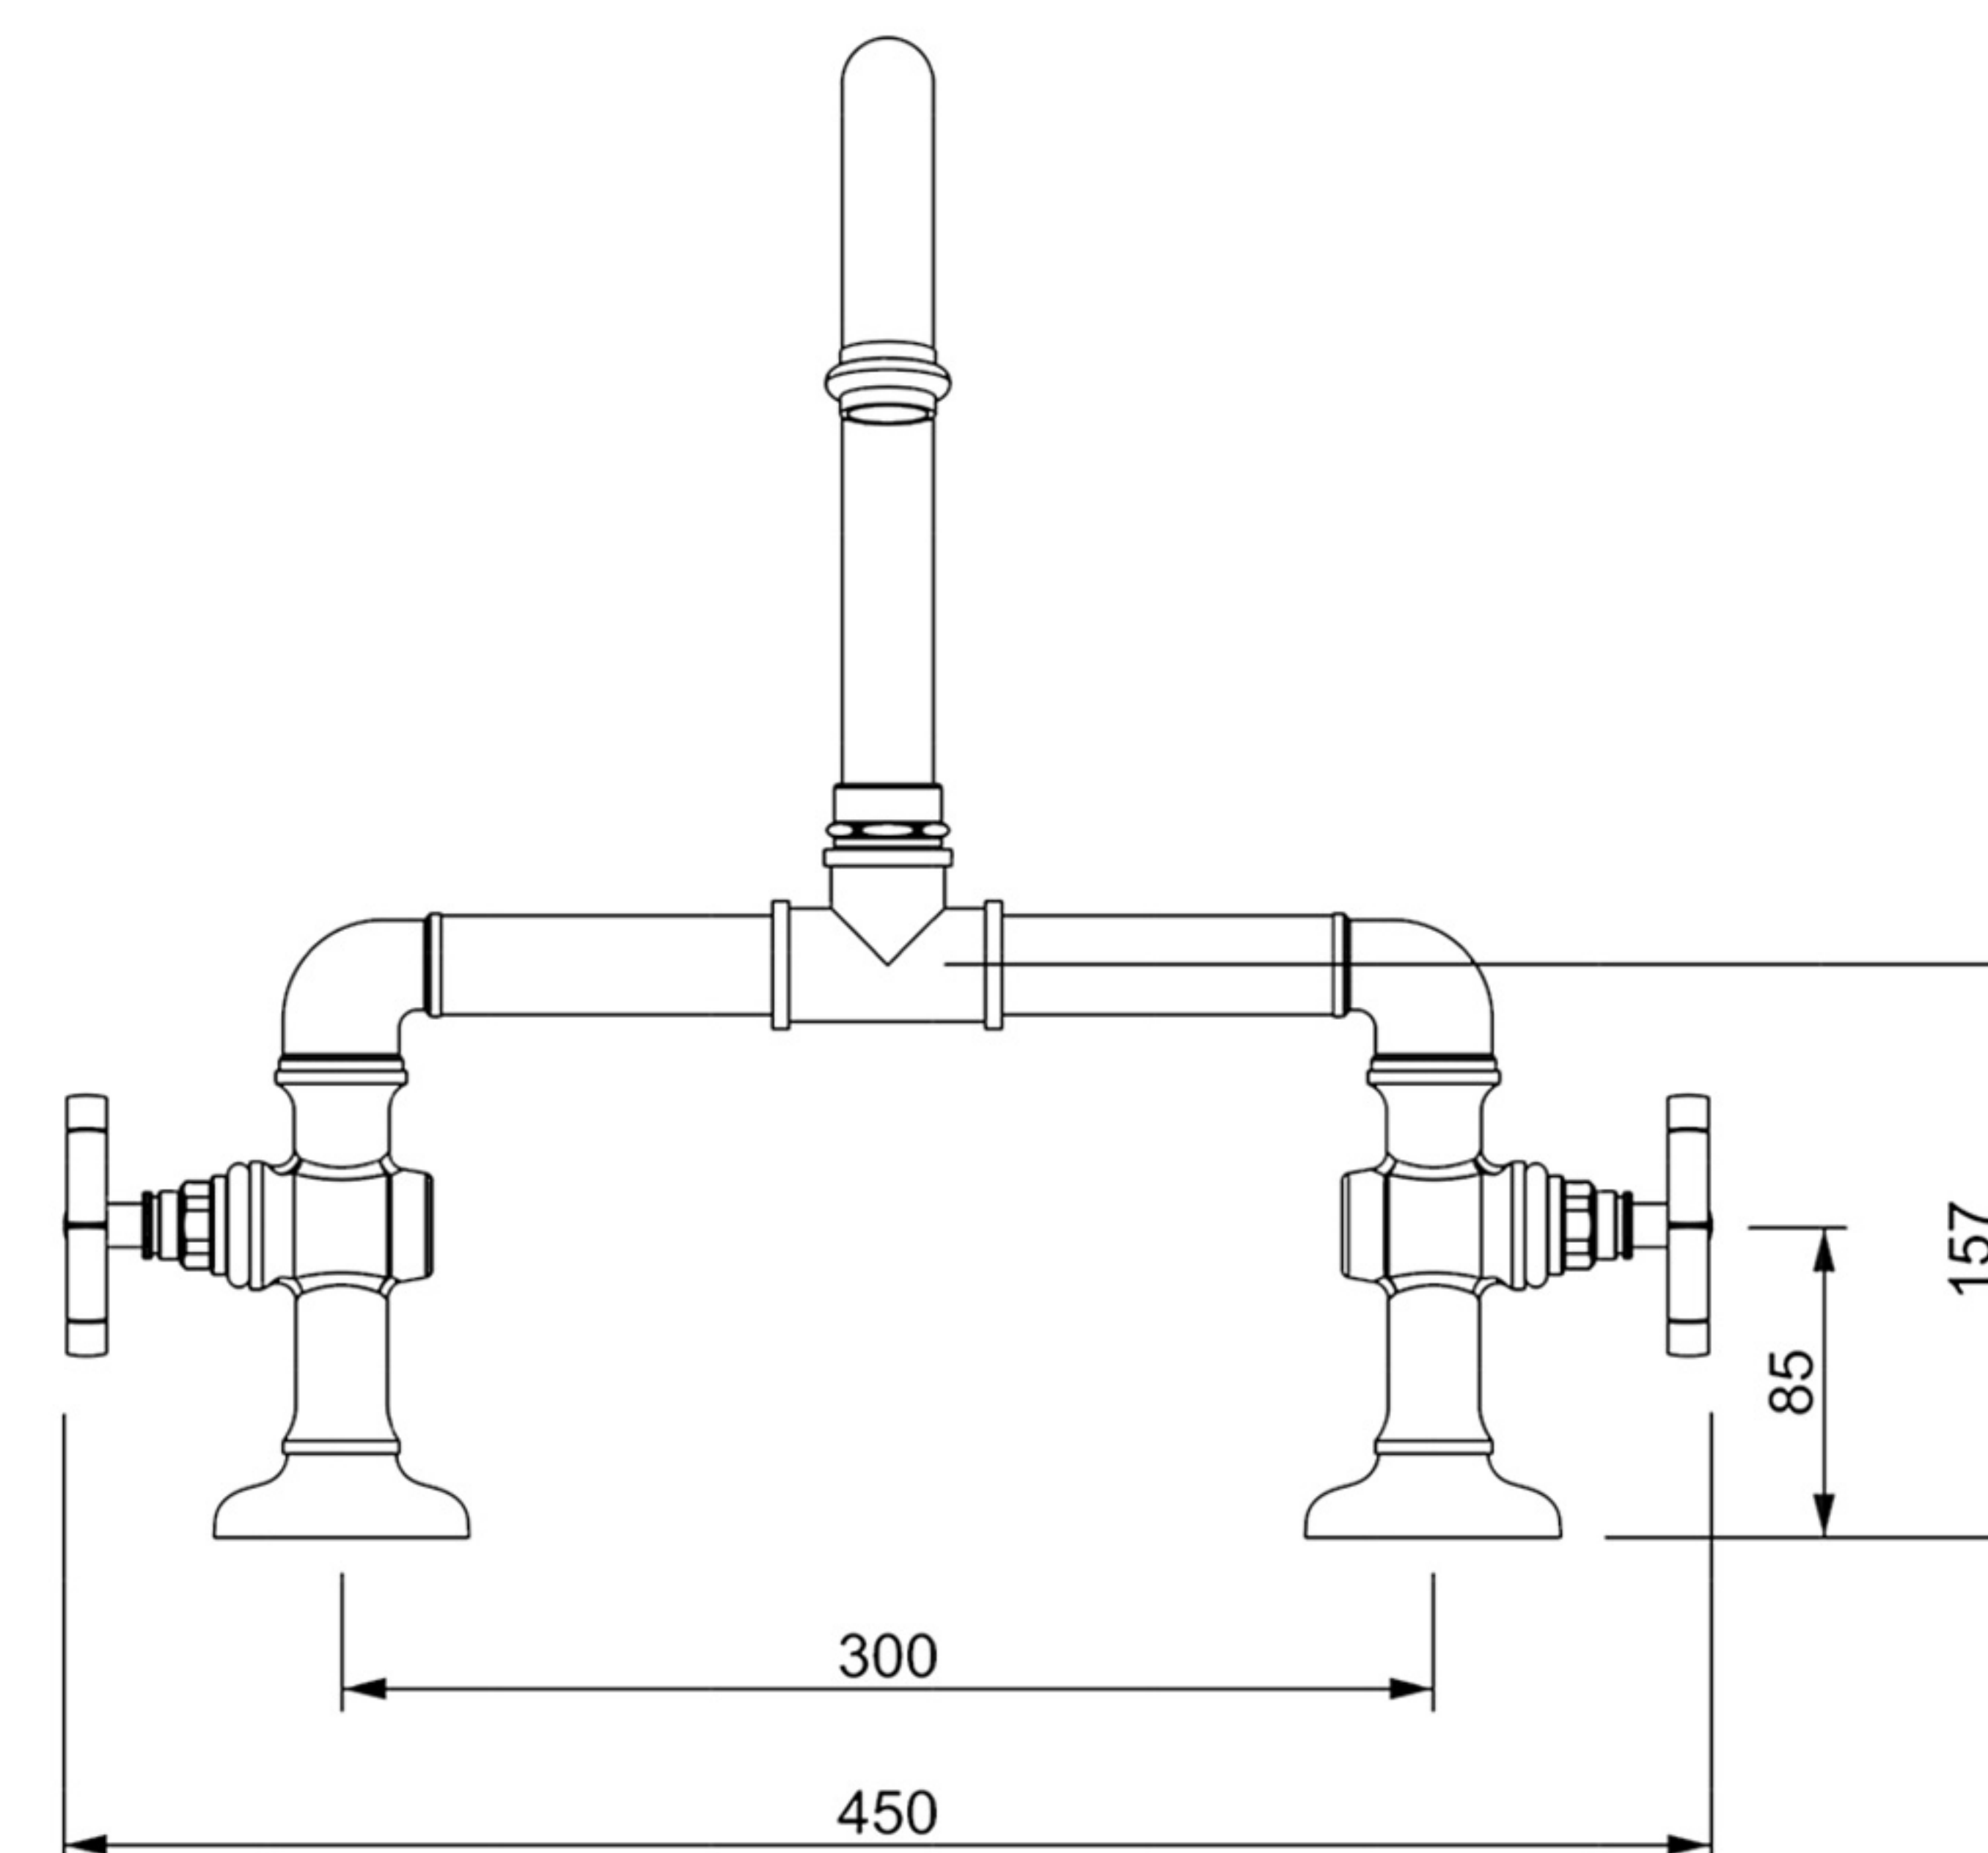

SERIE INDUSTRIALE

ART SI137C

Gruppo a ponte da lavello
con manico ad ombrello
Materiale: ottone brunito

Technical Drawing

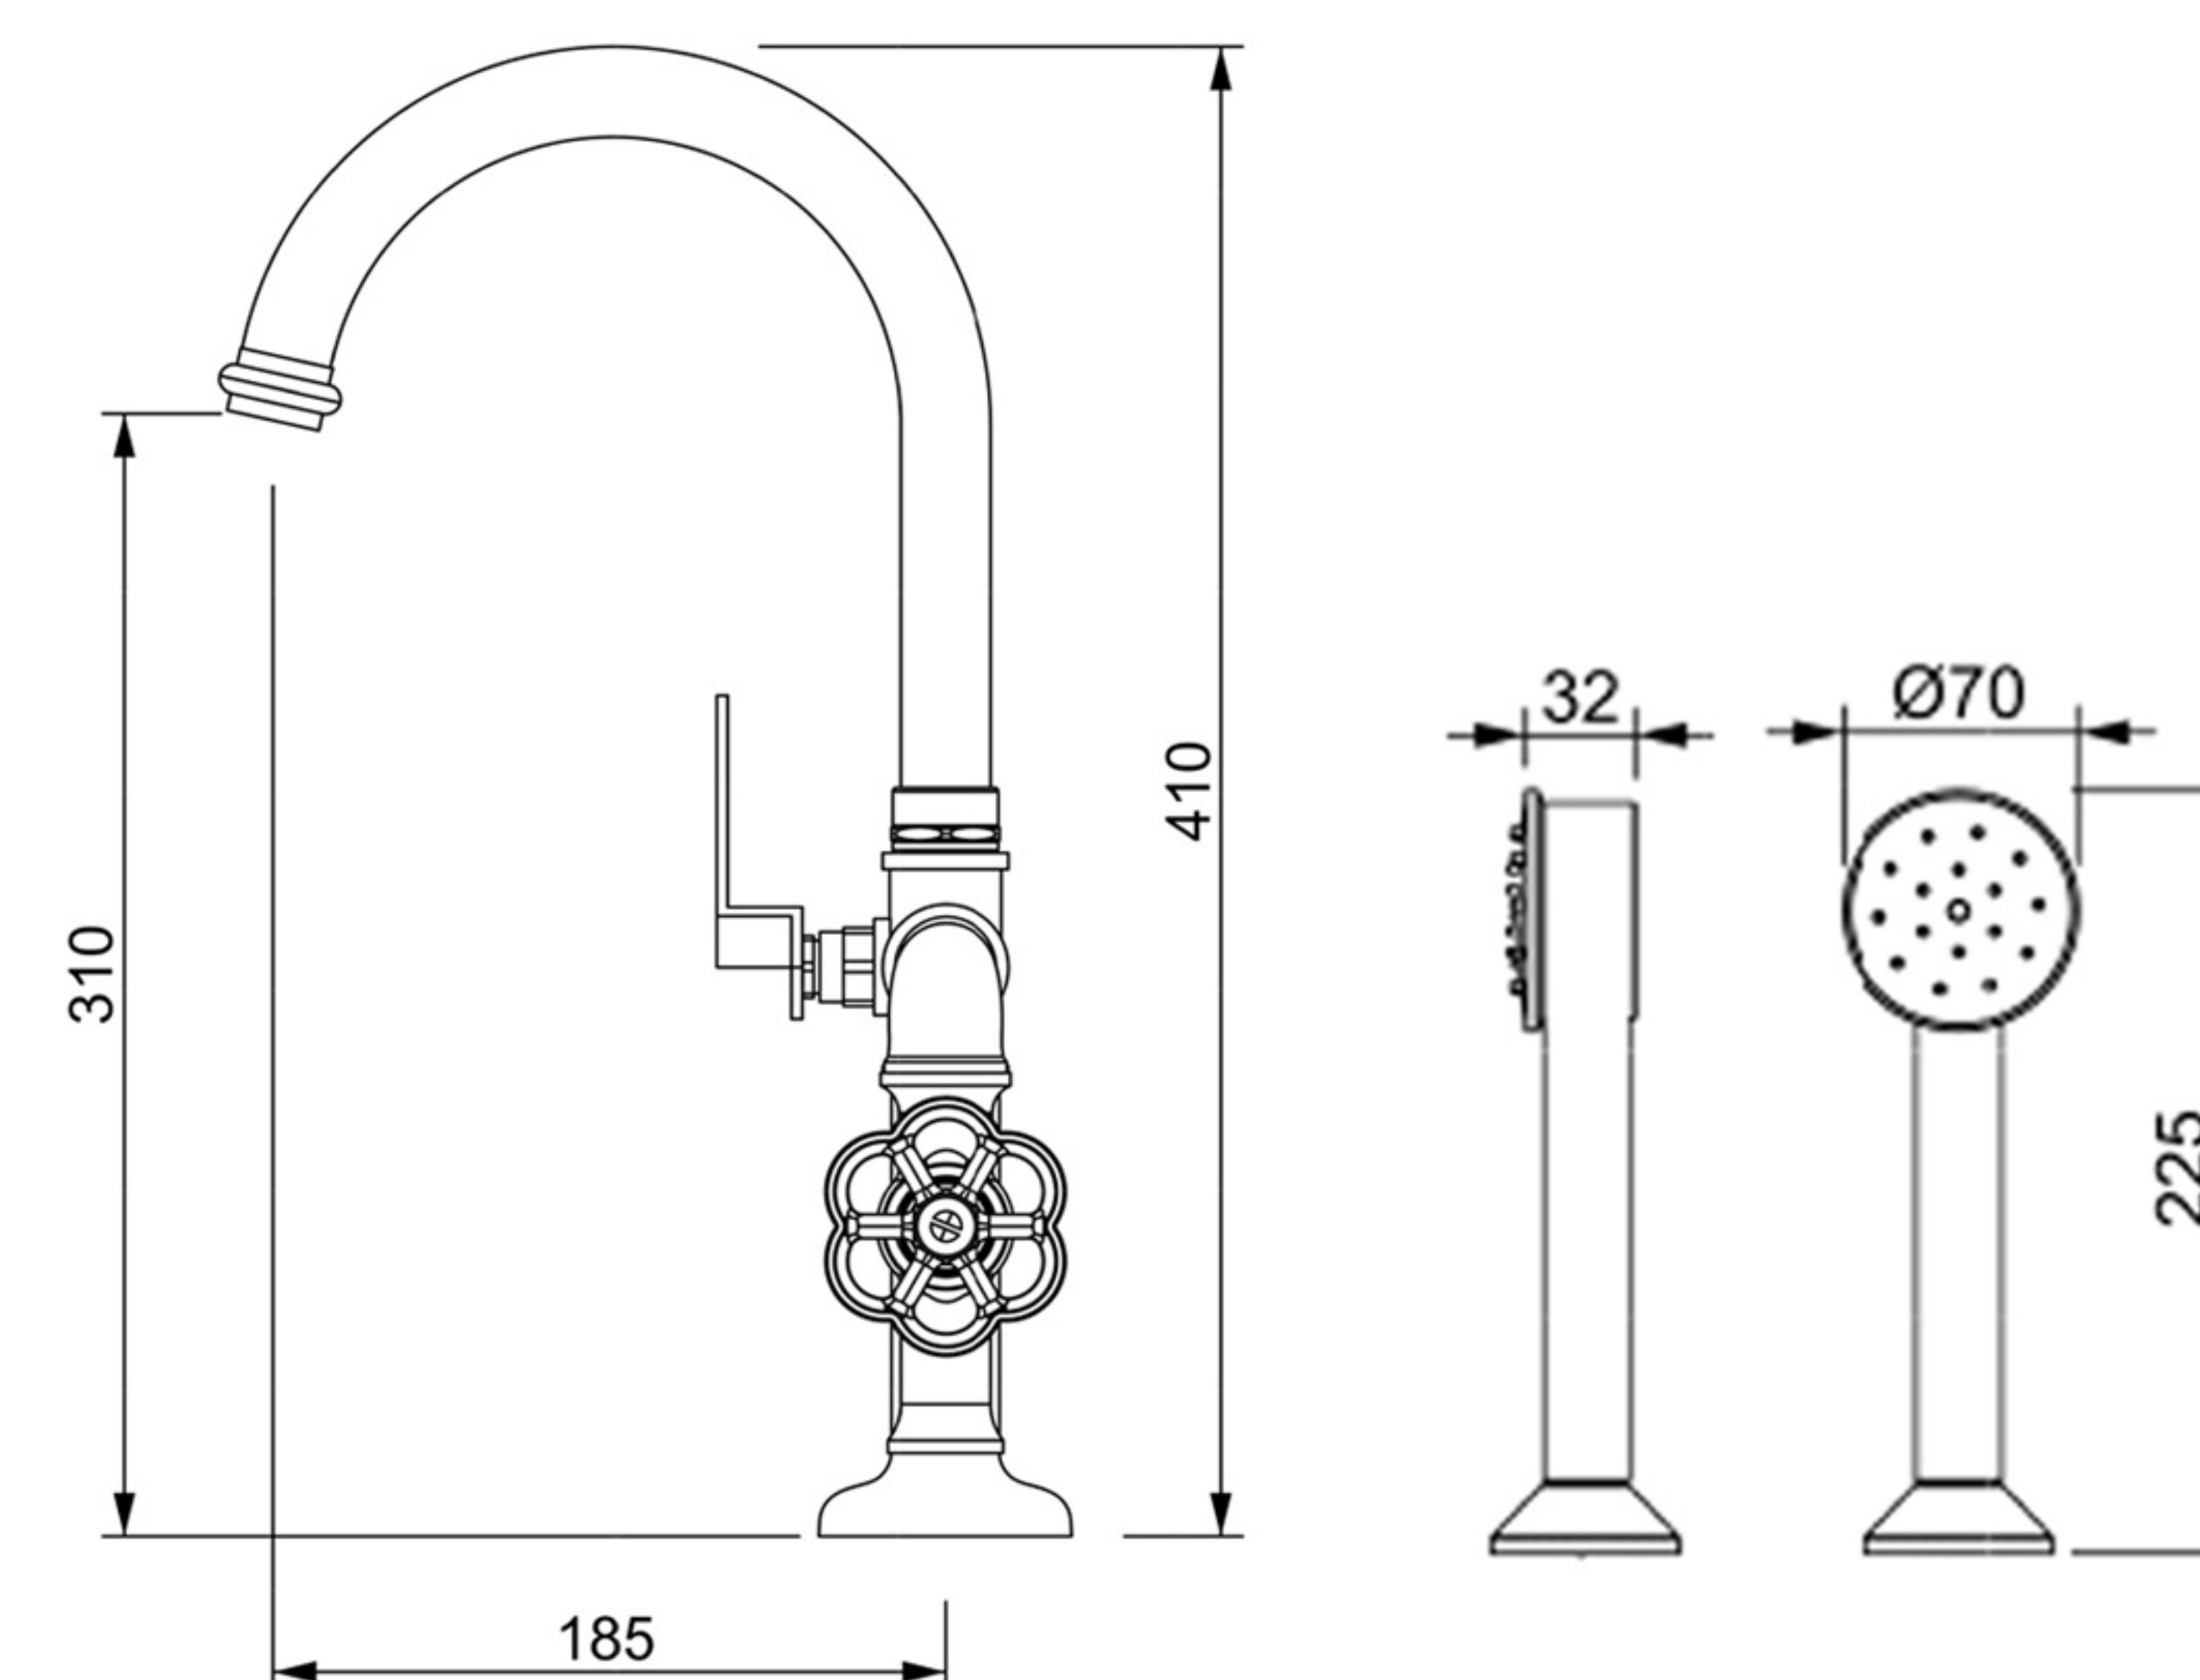

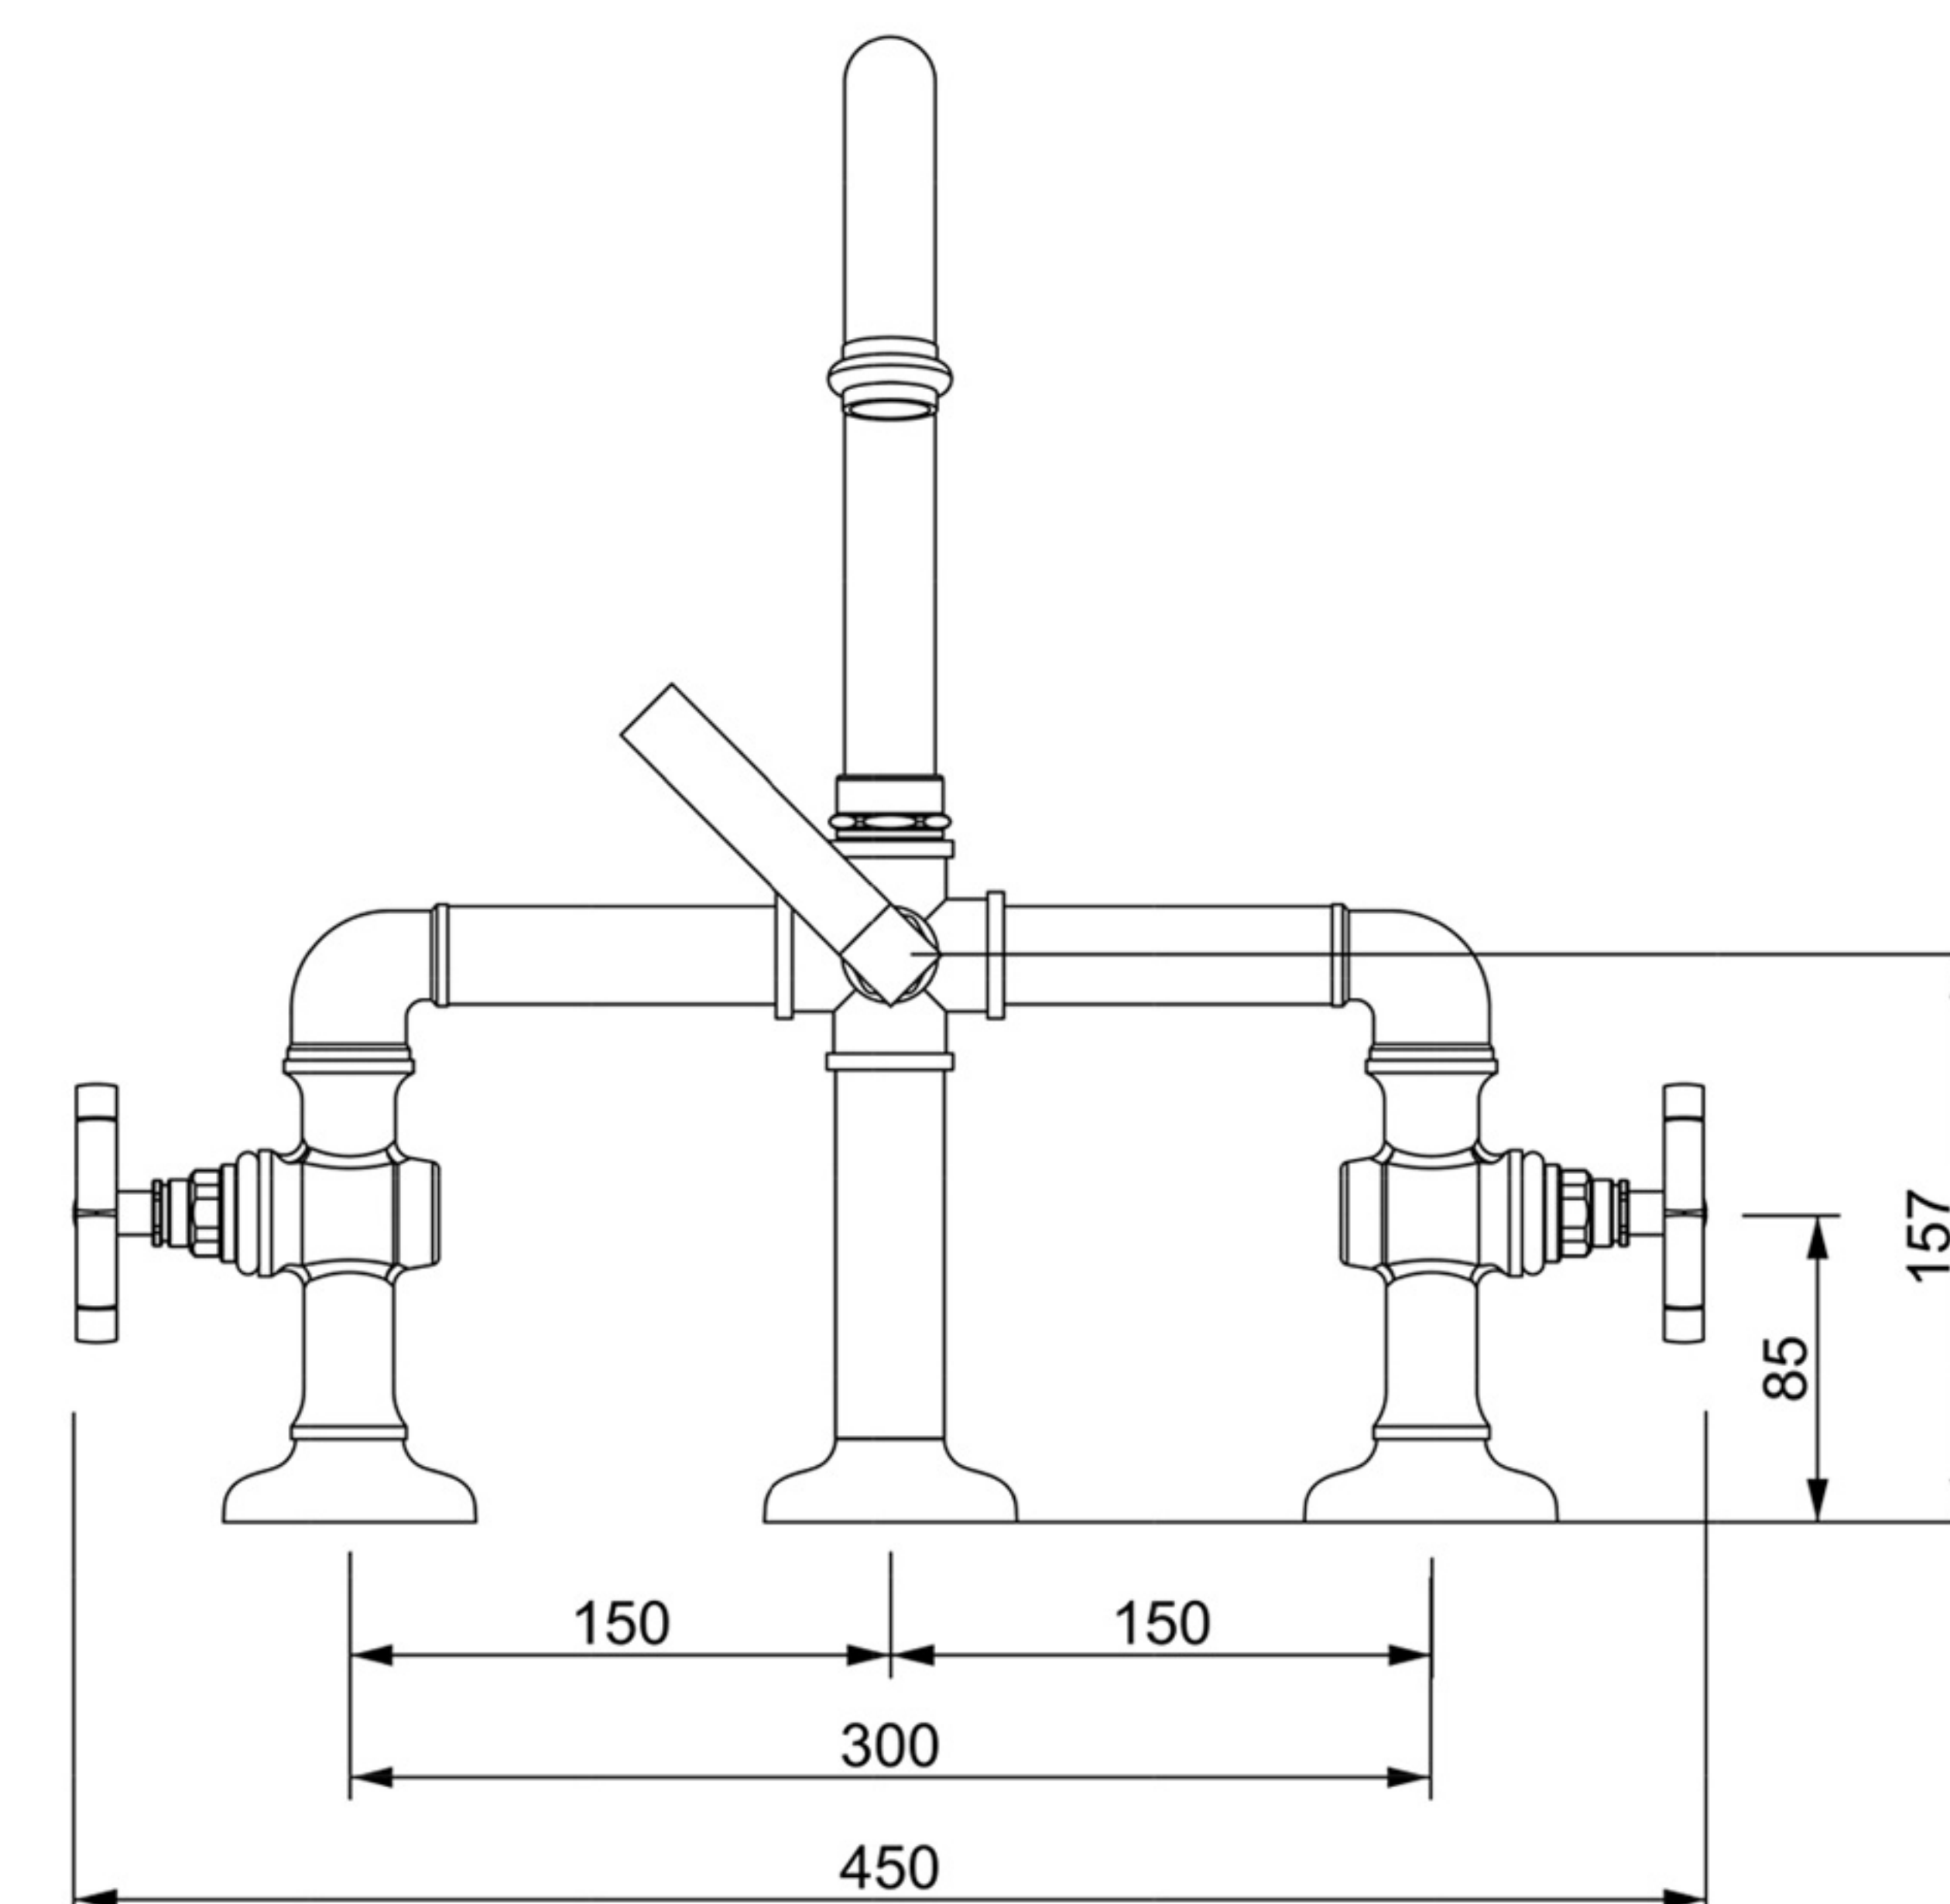

SERIE INDUSTRIALE

ART SI137CD
